East Moriches, NY

Versatile software engineer and tech sales rep with over a year of experience in frontend and full-stack engineering, specializing in creative, design-focused web development. Proficient in Next.js, React, React Native, TailwindCSS, Javascript, Typescript, HTML5, CSS3, Cursor AI-assisted coding, and Figma. Self-starter, innovator, highly creative.

Professional Experience

Shiloh Code

[Remote | September 2025 - present](#)

Tech Sales Rep

- Executed targeted outbound prospecting campaigns via LinkedIn to engage decision-makers from a curated lead list, generating a consistent pipeline of qualified opportunities.
- Nurtured warm leads through personalized messaging and relationship-building, improving conversion rates and accelerating the sales cycle.
- Conducted in-depth discovery calls to assess client needs, present tailored solutions, and guide prospects through the decision-making process.

Skinstric AI

[Remote | September 2024 - April 2025](#)

Frontend Engineer

- Architected real-time skin analysis platform using OpenAI Vision API and Next.js, achieving 98% detection accuracy across diverse skin conditions
- Developed responsive UI with TailwindCSS and GSAP animations, implementing dynamic skincare recommendation cards with 60% improved engagement
- Optimized performance using Next.js Server Components and Lottie animations, achieving sub-2-second analysis time for skin condition detection

Frontend Simplified

[Remote | January 2024 - Sept. 2024](#)

Frontend Developer & Support staff

- Selected as peer mentor after achieving top 5% performance in cohort, providing debugging support and code reviews for 20+ students across React and Next.js projects.
- Created and led workshops on modern frontend optimization techniques, helping students improve their portfolio project load times by an average of 50%.
- Developed comprehensive learning resources for React component architecture and TypeScript, resulting in 70% of mentored students successfully implementing type-safe applications.
- Initiated weekly pair programming sessions focused on accessibility and SEO best practices, leading to 90% of mentored students achieving WCAG compliance in their projects
- Built and shared reusable component library using ShadCN/UI, reducing development time for student projects by 40% and improving code consistency
- Led study groups on deployment strategies and CI/CD, resulting in 85% of students successfully implementing automated deployment pipelines for their portfolio projects

Projects

written-art™

Freelance Web Dev Company written-art.com

- Developed frontend website for web design / dev freelancing. Built on Next.js, utilized Aceternity UI component library, optimized for mobile, implemented Resend email-sending API, Formspree contact form, call scheduling.

Jesus Journal™

Full Stack AI Bible Journal Web App jesusjournal.app

- Designed and developed a full stack web app for Christian journaling using Bible verse prompts. Implemented Firebase Firestore DB, OpenAI API, Stripe payment processing for subscription management. Built on Next.js

Technical Skills

Programming Languages: TypeScript, JavaScript, HTML, CSS

Frameworks: React, React Native, TailwindCSS, Nativewind, Firebase, Supabase, NextJS, Redux, React Query, React Hook Form, Zustand, NodeJS, Express, Rest API's, ShadCN/UI, Aceternity UI

Tools & Other platforms: Vercel, GitHub, Figma, Framer, VSCode, Cursor, Stripe, OpenAI API, React Testing Libraries, Clerk, Firebase

Soft Skills: Leadership, Resourceful, Persistent, Consistent, Time-management, Friendly, Dedicated, Team-player
